

	Description of Bug	Location of Bug	Steps to recreate	Root Cause Notes
1.	In OPL Election, if the candidates are not separated by a space, the candidates last names are missing the first letter.	The OPL method createPartiesAndCandidates	Any test file where the candidates are not separated by a space will produce the bug. For example, Deustch will be saved as "eustch" given: [Foster,D],[Deutsch,R]	We assumed that there will be a space in between the candidates: [Foster,D], [Deutsch,R] The issue is in line <code>candName = lines[i].substring(2)</code> ;
2.	In PO Election, if the candidates are not separated by a space, the candidates last names are missing the first letter.	The PO method, assignBallots.	Any test file where the candidates are not separated by a space will produce the bug. For example, Deustch will be saved as "eustch" given: [Foster,D],[Deutsch,R]	We assumed that there will be a space in between the candidates: [Foster,D], [Deutsch,R] The issue is in line <code>candName = lines[i].substring(2)</code>
